

I reside in Edmond, Oklahoma and listen to K-love FM radio station which plays uplifting music, testimonials and scripture. It is a wonderful station that alot of our young people enjoy listening to. I am concerned that if an LPFM broadcaster was in our area K-LOVE might be displaced and our youth would miss out on this wonderful ministry. K-LOVE plays positive and encouraging music; has call in programs where youth (or any age) can call in with problems and find help or informed of resources to help with their particular problem(s); and caring people that will pray with them and for them. K-LOVE's main focus is sharing the gospel and helping those in need. Thank you for your time and attention.
